G8 HPLC Reporting Software

Reporting Software Expands Functionality for Tosoh G8 HPLC Analyzer

- User Friendly
- Data Management
- Levey-Jennings
- Chartable Reports
- Lot # Documentation
**G8 HPLC Analyzer Features**

- G8 HPLC Analyzer with touch screen - Simplicity of operation
- Cation exchange chromatography - Gold Standard method used for DCCT
- SA1c in 1.6 minutes - Quick turn around time to optimize patient care
- Multifunctional STAT sample position - No dilutions - Saves time
- Physical design - Compact size fits anywhere
- Mechanical design - Low CVs for a high level of precision
- NGSP certified - National Standardization
- IFCC certified - International Certification

**G8 Reporting Software Features**

- Customizable G8 database management - Flexibility in result reports
- Automatic printing of patient demographics with chromatogram - Provides chartable reports
- Trend analysis charts - Easy review of patient SA1c results over time
- Result tracking by lot - Enhanced documentation for ease of inspections
